

"TO OUR NEIGHBORS AS LOUISIANA REBUILDS"

The destruction experienced from Hurricanes Katrina and Rita within the last three weeks tested the resolve of all Louisiana citizens. Our hearts go out to all affected.

The Port of South Louisiana is committed to helping our customers and our communities as we rebuild with confidence. The Port of South Louisiana marshaled resources and worked tirelessly to provide mutual aid to our sister ports and local businesses during these extremely difficult times.

We are dedicated and committed to the rebuilding process. We encourage our businesses to rebuild bigger, stronger and better. The Port of South Louisiana offers the opportunity to businesses that have been displaced to meet with our Port to discuss various ways we can assist. We are able to identify potential locations for build-to-suit lease options for manufacturing, warehousing / distribution and professional office space anywhere in the state of Louisiana.

The Port of South Louisiana is strategically located on the Mississippi River between New Orleans and Baton Rouge and only minutes from I-10 and I-55. Our Port district serves the Tri-Parish area along the Mississippi River of St. Charles, St. John the Baptist, and St. James.

We encourage businesses to continue to rebuild in Louisiana and take advantage of all the services our Port has to offer.

"OPEN FOR BUSINESS"
