**Current Updates-** Our executive team continues to move forward with the 90-day assessment, focusing on organizational structure, internal processes, financial positioning, and technology needs. We have reestablished a consistent cadence of executive staff meetings and cross-departmental coordination to ensure alignment and accountability as we move through this evaluation period.

We have also continued to review our active business development pipeline, retention and expansion efforts, and prospective projects across the River District. This work remains aligned with our three core pillars that reflect today's economic environment:

- Fueling Our Economy
- Feeding the World
- Fortifying Our Infrastructure
- 

### **February Engagements and Events**

This month included several meaningful opportunities to represent the Port, engage with partners, and advance our priorities including:

- Participation in Washington Mardi Gras, including multiple policy, economic development, and industry events that allowed us to engage directly with members of Louisiana's Congressional Delegation, state leaders, and private-sector partners.

- Hosting and attending the RREDI Breakfast, which once again proved to be a strong platform for discussing regional collaboration, infrastructure investment, and economic competitiveness.
  - Meetings with public- and private-sector stakeholders to reinforce the Port's role in supporting energy, agriculture, manufacturing, and global trade.
  - Christening of Associated Terminals' two high-capacity barge cranes which will support our commodity movements and logistics here at Globalplex and along the Lower Mississippi River
  - Attending a meeting among the 5 Lower Mississippi River Ports and LED to discuss unified marketing plan governance
  - Presenting to the World Trade Center's Transportation Committee luncheon
  - Panelist for Louisiana Investment Forum, alongside Michael Hecht and other Louisiana officials
- \*Attended Ports Association of Louisiana Annual conference
  - \*Pitch Week at POSL, employee led presentations to propose change
  - \*Implementation and roll of Phase 1 of Tyler Systems (HR/Finance Module)

These engagements were valuable in strengthening relationships, reinforcing the Port's strategic importance, and ensuring our priorities remain well understood at both the state and federal levels.

### **Looking Ahead**

Over the coming weeks, we will continue refining our internal review, identifying opportunities to modernize operations, and advancing business development efforts.

We are implementing Tyler Software and phasing in capabilities slowly but surely.

We will also continue to structure our workload around Commission meetings to ensure you receive clear, concise, and well-prepared information in advance of each meeting.

Our proposed 2026-27 budget has been submitted to you all and we look forward to hearings and action in the months to come.
